Thanks Julie –

I just want to add to this for folks who aren't familiar with the backstory. CFAC left spent pot liner material (which is RCRA listed waste) in the facility after they stopped production. CFAC expressed interest in removing that waste under an AOC with MDEQ. Based on the content of the cover letter, I believe that this AOC will be in regard to removing the spent pot liner waste from inside the facility. Specifically, it will not be in regard to the landfills at the facility that have spent pot liner landfilled in them prior to the waste being characterized as a RCRA listed waste.

Rob

All,

Mike Reiger's is out for training this week, but we wanted to get this sent out to you.

I attached the Cover Letter for the draft AOC sent to CFAC. Hard copy to follow.
